

A GUIDE TO
JEWELER CART E-COMMERCE
JEWELRY WEB PLATFORM

jewelercart

An introduction to the most comprehensive website platform for the jewelry and diamond industry.

BY
FREDERICK JONES
CREATOR AND CEO

Table Of Contents

3	Author's Note
4	Introduction to Jewelercart
5	Jewelercart vs. Competitors
6	Jewelercart Features
8	Jewelercart Features Walkthrough
9	Understanding Jewelercart Jico Model
10	Jewelercart Subscriptions

Author's Note

As a digital author, I believe as human beings we need two very important things to survive (and this isn't air or food I'm speaking of), one is the Internet and the second Websites.

Currently, websites are the revamped versions of yellowpages. Whether you want to find a business, a job, a person or even do some shopping sitting at home, websites are definitely your first go to place.

Now here's the truth, a good website doesn't come cheap. Most people bleed their wallets in the process of making sure their websites look great and work great as well, the costs at times are so discouraging, the idea of getting a website created becomes a nightmare for some people.

This is where the magic of Jewelercart is felt at a maximum. With Jewelercart almost anyone with minimum or no design and development can manage the very best jewelry e-commerce system on the market.

Each chapter in this ebook will give you a clear conception of JewelerCart, how it works, and why today it stands as one of the most popular Jewelry website platforms available. At the end of the read, you'll also have a basic level of practical, hands-on experience with Jewelercart features and will be able to manage your first order.

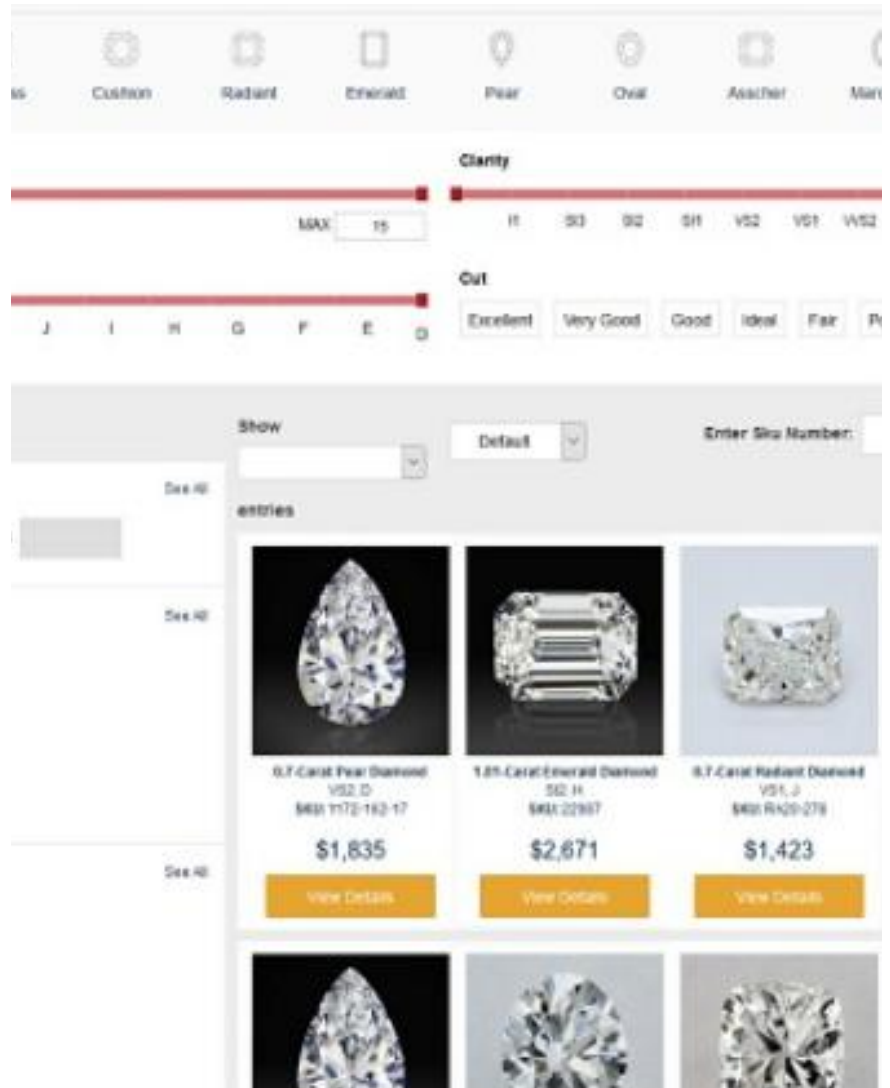

I dedicate this book to every jeweler who's been thriving to get their website up all these years and also to those who already know a lot about the platform yet is keen to know more . Kudos!

Frederick Jones

CEO
JewelerCart.com
Fred@jewelercart.com

Introduction to Jewelercart

The easiest way to understand what Jewelercart does, and how it does it, is to dig into the following analogy: Jewelercart's CEO is the data analyst that scans the web for the latest jewelry technology. Jewelercart is the expression of his research synthesized with his creativity and input from jewelers over a 20-year period. Jewelercart was designed as a plug-and-play E-commerce system for jewelers so they can focus on what they love which is to make their customers happy with their fancy and shiny collections of Jewelry.

“Jeweler Cart's web based E-commerce Platform is based on 20 years of Jewelers input

Core System Updates every 18 months to stay ahead of your competitors

Plug and Play E-commerce website installs within 24 hrs after making a purchase

Our Programmers can Customize your Jewelercart because of its flexible platform

No setup, all plans include marketing and low maintenance costs

ERP Diamond Management Software for Diamond Dealers

Jewelercart (Pos) Point of Sale Integration with store and Jewelercart 8.0 Website

What is the IoT Box?

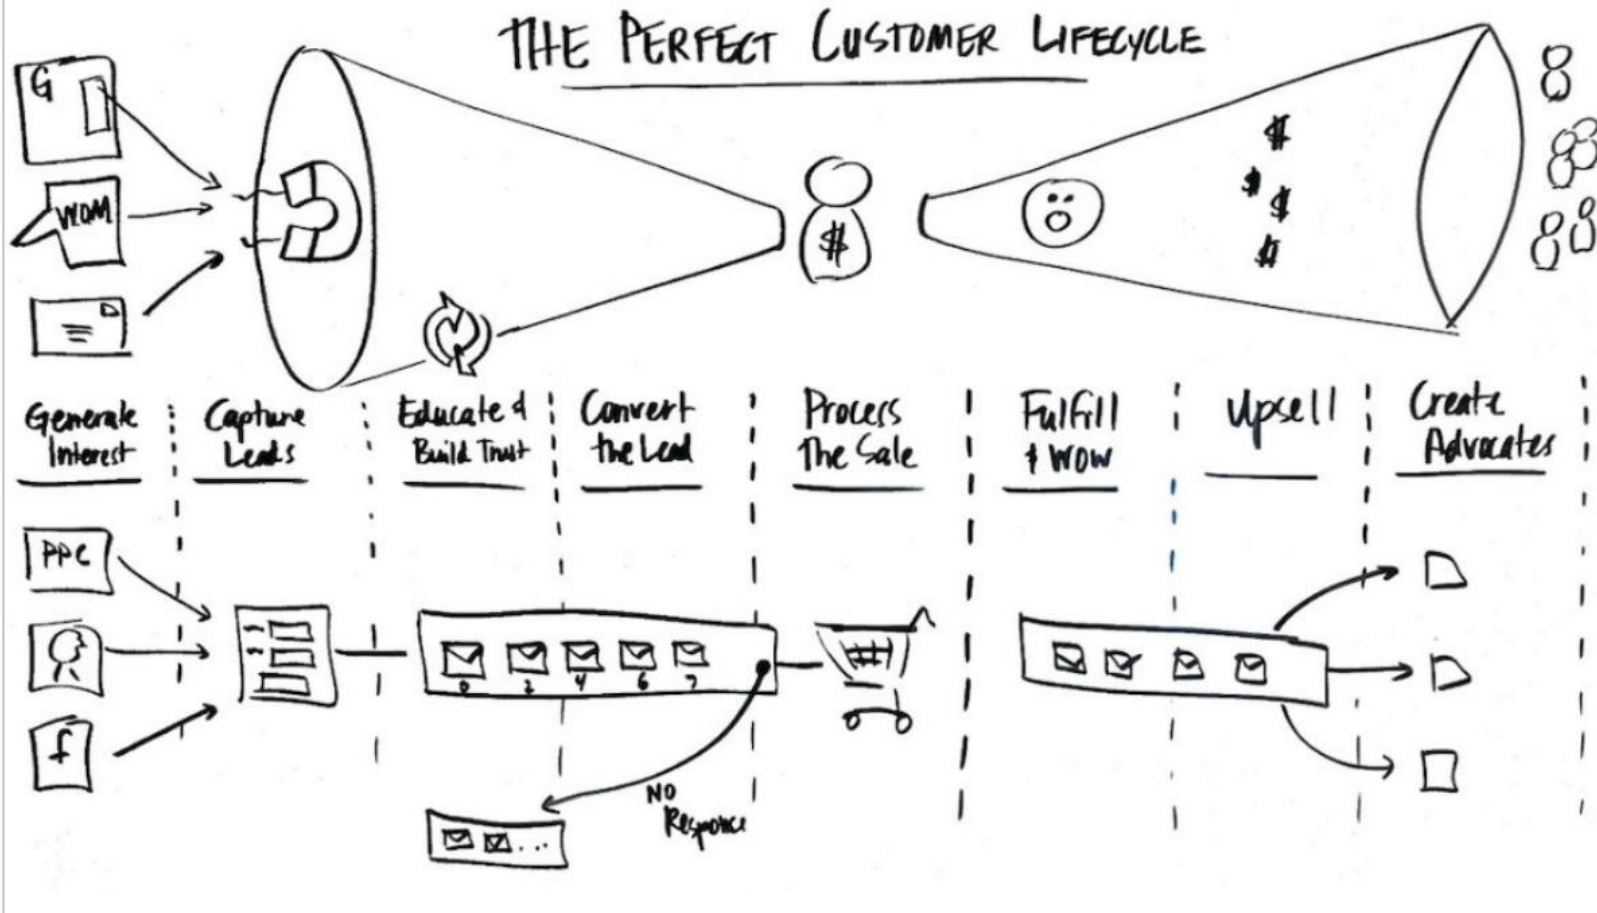

The cross-platform hardware solution.

The IoT Box is a small device that allows you to use the same industry standard USB POS peripherals on every device (PC, Mac, Linux, iOS, Android). Not only does it make the setup easier, it actually lowers your costs.
